Classroom Agreements

Your mission is to create a set of 5 classroom agreements. These are norms that the teacher and students should follow.

The agreements should focus on keeping the classroom a place where everyone can learn, and they should be beneficial for both the students and the teacher. You should think (if you were the teacher) what agreements and norms would be necessary to run a fun, fair, and effective learning environment?

Write 5 classroom agreements below (Examples: do your best, don't gossip, come to class on time, etc).

Then be prepared to share your agreements with a partner and the class.
